At \$9.95 You Can Afford to Test It On A Couple of Twenties

We've all wanted a shredder from time to time, but at these prices its just too hard to pass up. For a ten spot you can protect yourself from prying eyes and "dumpster divers" with a personal shredder. The Fellowes strip-cut paper shredder (219184EC) is designed to go anywhere you need it, shredding sensitive documents into "unreadable strips." Auto-start/stop means you can feed in up to 7 sheets at a time (staples, paper clips and all!) with one-handed ease; no fumbling for a switch. And at this unbelievable price, you can turn every basket in your home and office into a maximum security receptacle. For an added measure of destruction of top-secret materials, use the Fellowes factory refurbished confetti-cut shredder (219176EC). Originally new at \$129, it is an equally-great value now at \$49.95. It features faster throughput, greater capacity and a confetti-cut to make your discarded documents disappear, and disappear for good.

To keep prying eyes from poaching your private business, either model will turn that stack of confidential paperwork into a handful of scrambled dregs with shredded ease.
